

Accu-Finish 2

€ 2.500,-

Accu-Finish Series 2 is a hybrid sharpening system. It resembles traditional grinders so you quickly learn how it works. But the technical advantage soon transpires. Tool angles are more accurate, which lowers your scrap. Almost any tool material can be ground on the same wheels. Heat damage and fast wear is eliminated by a special low-speed lapping process, extending your tool life. Tools with well sharpened cutting edges ensure an even better surface finish of your seals.

The Accu-Finish 2 gives you following advantages:

- ➔ Sharper tools
- ➔ Longer tool life
- ➔ Less wear
- ➔ Reduced costs

€ 2.500,-*

***Includes:**

Tool sharpening machine,
Diamond wheel 011-088 1200 grit wheel,
wetting agent, spray bottle,
wheel cleaning stick, instruction manual

Accu-Finish 2

- ➔ Substantial cost savings through more efficient tool utilization
- ➔ Quick and precise technology to sharpen your tools and inserts
- ➔ Successful lapping regardless of experience
- ➔ Considerable improvement in operator safety
- ➔ Clean operation - no airborne abrasive dust

Technical Data

Motor	100% duty, thermal protection, UL certified, reversible
Spindle Drive	Belt reduction (dual belts), 300 rpm, reversible
Wheels	6" diameter with 1/2" arbour hole. Diamond and ceramic lapping wheels also available.
